Where: Bay Area Community Resources

103 Shoreline Parkway

*San Rafael, CA 94901 *** CEU's Available****

Time: 9:00am – 4:30 pm (Registration starts at 8:30 am)

Workshop Description

Project SUCCESS is a research-based program that is based on over 25 years of research and practice by the program developer, Ellen Morehouse LCSW, CASAC, CPP. Project SUCCESS (Schools Using Coordinated Community Efforts to Strengthen Students) is designed to prevent and reduce substance use among students 12 to 18 years of age. The program was originally developed for students attending alternative high schools who are at high risk for substance use and abuse due to poor academic performance, truancy, discipline problems, negative attitudes toward school, and parental substance abuse. Project SUCCESS works by placing a highly trained, masters level professional in the school to provide a full range of substance abuse prevention and early intervention services. Project SUCCESS counselors use the following intervention strategies: information dissemination, normative and prevention education, problem identification and referral, community-based processes, environmental approaches, resistance and social competency skills such as communication, decision-making, stress and anger management, problem solving, and resisting peer pressure. The Substance Abuse and Mental Health Services Administration (SAMSHA) Center for Substance Abuse Prevention (CSAP) has designated Project SUCCESS a Model Program. In addition, Project SUCCESS received the 2003 Prevention and Education Meritorious Award from the National Council on Alcoholism and Drug Dependence (NCADD) for demonstrating effectiveness in enervation and alcohol and other drug prevention and education.

About the Facilitator

Ellen Morehouse LCSW, CASAC, CPP. Ms. Morehouse is the Executive Director of Student Assistance Services Corp, a not-for-profit agency specializing in substance abuse prevention located in Westchester County, New York. Ms Morehouse, an innovator in the substance abuse prevention field is credited with adapting the Employee Assistance Program (EAP) model to secondary schools and residential facilities. EAPs have been used successfully by industry to assist employees whose work performance has been negatively affected by alcohol, other drugs, or personal and family problems. Since 1979, Ms. Morehouse has been implementing this approach in schools throughout Westchester and Rockland Counties in New York with enormous success. Project SUCCESS is modeled after the successful Westchester Student Assistance Program.
